

AUDIT + COMPLIANCE

Audit Analytics is an independent research provider of audit, regulatory and disclosure intelligence. Through easy-to-use online research, Audit Analytics enables the accounting, investment, insurance, legal, regulatory, marketing, corporate finance, and academic communities to track, analyze, benchmark and understand public company disclosure issues and trends.

Data sets available in Audit Analytics track in detail the issues related to audit, compliance, governance, corporate actions, and federal litigation for all SEC registrants (including foreign and Canadian filers).

Audit Analytics subscribers include:

- 18 of the top 20 public accounting firms
- 4 of the top 5 errors and omissions insurers
- Over 200 universities
- 7 regulatory bodies

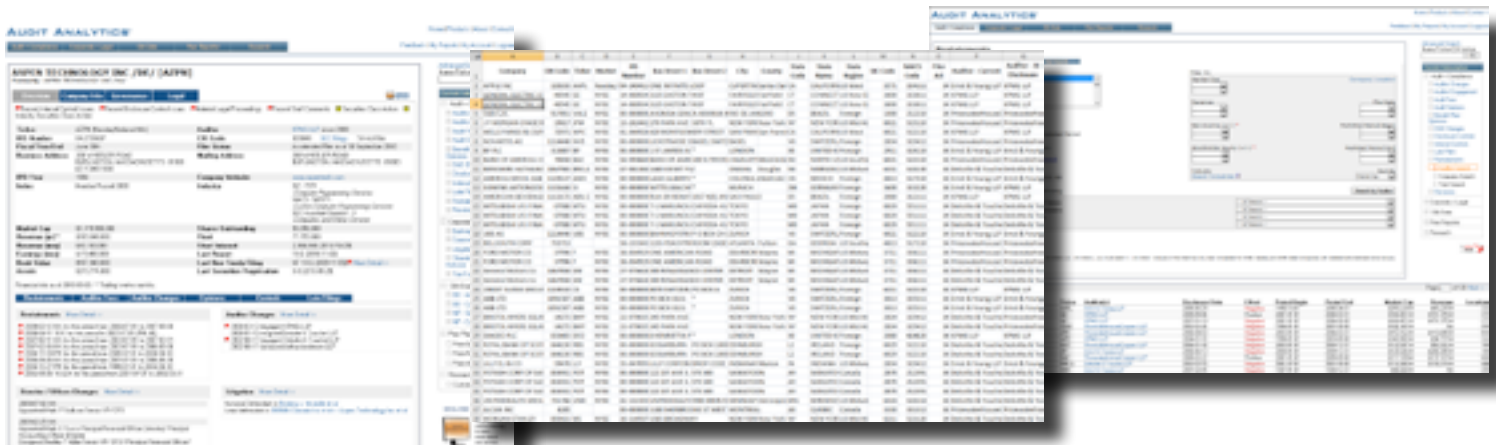

DATA COVERAGE

Audit Analytics Audit + Compliance module addresses core informational demands for tracking, analyzing, and understanding audit, regulatory and disclosure issues and trends. Founder, Lord & Benoit, LLP
Section 404 Compliance Consultants
Member, COSO Small Business
Advisory Group
Member, AICPA Peer Review Group

COMPREHENSIVE RESEARCH

Audit Analytics comprehensive research is used daily around the world for market intelligence, due diligence, compliance monitoring, benchmarking, business development and trend analysis. All disclosure issues are individually reviewed and categorized with Audit Analytics' proprietary issues taxonomy.

Corporate + Legal

Access and research audit and disclosure intelligence on specific SEC and legal actions within Audit Analytics proprietary SEC Comment Letters and Litigation databases. The Corporate + Legal service is a critical tool for enhancing new and existing accounting and securities legal work and advisory services.

SEC Comment Letters

Research and categorize discourse related to specific audit and disclosure issues between the SEC and public companies.

Other Independent Audit (OIA)

Expanding our view of the national audit market, Audit Analytics tracks who audits the Broker Dealers, Registered Investment Advisors, and Private Funds. Additionally, our new non-profit database tracks federally funded audited institutions and can be easily broken out for your business intelligence needs.

Peer Reporter

Benchmark and track key audit and compliance issues within defined peer groups on a daily basis. Comprehensive and timely custom reports based on issue type are easily generated with the Peer Reporter application.

Data Feeds

Integrate Audit Analytics data with internal information systems like CRM, compliance and risk management systems. Audit Analytics data feeds are designed for easy development of custom applications and dynamic reports.

Custom Research

Apply Audit Analytics expertise to better understand specific public company disclosure trends and identify new business opportunities. Our analysts and development teams are available to help with custom research projects and expert analysis.
