ABOUT US

Audit Analytics is an independent research provider of audit, regulatory, and disclosure intelligence. Through an easy-to-use online interface, Audit Analytics' comprehensive research is used daily around the world by the accounting, investment and legal communities for market intelligence, due diligence, compliance monitoring and trending.

Audit Analytics tracks in detail the issues related to audit, compliance, governance, corporate actions and federal litigation from a broad range of public disclosures, including: approximately 60,000 SEC registrants (including foreign and Canadian filers); over 7,000 Canadian SEDAR filers; roughly 8,000 European companies; more than 5,000 insurance companies filing with the NAIC; over 17 million ERISA plans filing IRS Form 5500; and more.

OUR DATA OFFERINGS

Audit + Compliance

Track and understand customer and competitor activities and trends related to audit, regulatory and disclosure issues. The Audit + Compliance module addresses core informational demands for a variety of research needs including market intelligence, due diligence, benchmarking, compliance monitoring and trend analysis.

Corporate + Legal

An integrated collection of databases focused on actions, disclosures, and correspondence by companies, advisors, regulators and investors. Leading investment and legal professionals use this intelligence to achieve cost and time savings for accounting and securities law work, due diligence, and business development.

Accounting + Oversight

Designed to illuminate the big picture of the audit and regulatory environment. Gain insight into audit and accounting quality, trends in PCAOB inspections, cybersecurity breaches, audit firm events, shareholder satisfaction with auditors and more.

Other Independent Audits (OIA)

Bring into focus hundreds of thousands of audits of non-public entities. Comprising two separate modules - Financial Services and Government & Non-Profit - this product covers a number of boutique industries, from broker dealers to benefit plans. These tools can help identify market and engagement opportunities.

Canada (SEDAR)

Provides detailed research and expert analysis on over 7,000 Canadian public companies. We process filings required by the Canadian Securities Administrators that are submitted to the online SEDAR database, enabling powerful and efficient data analytics.

Europe

Provides auditor and audit-related information on public companies and EEA Public Interest Entities (PIEs). Our core offerings include auditor engagements, audit fees, audit opinions, auditor changes, key audit matters (KAMs), transparency reports, and financial restatements.

Data Feeds

Integrate Audit Analytics data with internal information systems like CRM, compliance and risk management systems. Audit Analytics data feeds are designed for easy development of custom applications and dynamic reports.

Custom Research

Apply Audit Analytics expertise to better understand specific public company disclosure trends and identify new business opportunities. Our analysts and development teams are available to help with custom research projects and expert analysis.
